

HON DAILY 10 FABRICS AND FINISHES

Does this laminate look OK with that fabric? Do these colors go together? Would you say this fabric is green or gray? If you're not quite sure, HON Daily 10 is the only answer you need.

HON Daily 10 products are available in six designer-selected palettes, so you can't go wrong. Your customers simply choose one of the palettes on the following pages, then pick from the coordinated selection of fabrics, laminates and finishes available within it.

HERE'S HOW IT WORKS:

STEP 1: CHOOSE A PALETTE.

The selection consists of two classics, two earthtones and two neutrals – each containing a warm and cool palette – so your customer is sure to find one that's just right.

Classics	Brownstone Slate
Earthtones	Honey Spring
Neutrals	Dunes Clouds

STEP 2: PICK YOUR SWATCHES.

Simply choose a desking laminate, panel fabric, work surface laminate, storage finish and chair fabric from the selected palette. If swatches are on the same page, you can be sure they go together.

STEP 3: CONSIDER ACCENTS.

You don't have to stick with a single swatch from each product category. If you want to choose one fabric for work chairs, for instance, and an accenting fabric for guest chairs, that's fine.

Or step in a different direction: If you (or your customer) prefer to mix and match swatches from different palettes, feel free. The designer-selected palettes guarantee a coordinated look, but you're welcome to use any HON Daily 10 fabric, laminate or finish if you're confident in your choice.
